

## Notice

The Board of Commissioners of Albany County, Wyoming will be accepting Statements of Qualifications (SOQs) for architectural and engineering services for renovation of the second floor of the existing building at 3821 Beech Street in Laramie, Wyoming for use by Albany County Public Health, WIC, and Albany County Prevention Services. Albany County will likely utilize a general contractor for the project.

This Second Floor Beech Street project includes renovation of the existing second floor, that may consist of approximately 5,400 gross square feet. The renovation may include front entrances/waiting areas, offices, examination rooms, reception areas, conference rooms, storage rooms, restroom, and work rooms.

The selected firm will be required to meet with stakeholders, prepare design, specifications, and reports of the spaces, obtain approval from stakeholders for the project, prepare schematic designs, development designs, develop construction documents, assist with bidding, and assist with contract and construction administration. The Albany County engineer will provide all site design elements related to civil engineering.

Additional information and SOQ requirements are available through Albany County's QuestCDN Portal at <https://www.co.albany.wy.us/476/Public-Bid>. SOQs shall be uploaded through the County's QuestCDN Portal by 3:00 p.m. MDT on March 24, 2023.

Award of contract will be based on the evaluation criteria and the County is not required to award any contract based on lowest cost.

Publish: March 4, 2023 and March 15, 2023
